graduates_from_ndhu 【President's Letter to the International Alumni】

Dear NDHU International Alumni,

I hope this message finds you well. I'm reaching out to update you on the recent earthquakes in Hualien that have impacted our alma mater, National Dong Hwa University (NDHU).

The earthquakes, which occurred on April 3rd, have profoundly impacted our university, particularly with the tragic burning of the College of Science and Engineering Building I. While this event has understandably caused concern worldwide, I am relieved to share that all members of our NDHU community are safe.

However, we are now confronted with new challenges in the aftermath of this incident. As the President of NDHU, I am responsible for informing you that our university requires additional support to address the impacts of the earthquakes and the resulting damage to our buildings.
